UNSW Aviation

Postgraduate Student Guide

Grad Cert, Grad Dip and MSc Tech (Aviation)

Semester 1, 2011
Enrolment

Every student must enrol in at least ONE course each semester unless he/she is on approved study leave or qualified for graduation. If you wish to apply for study leave for Semester 1, 2011, you will have until the 31st of March to do so to avoid financial penalty.

Students who apply for leave after 31st March will have to pay the fees for the courses and may be academically penalised. If you wish to apply for study leave, please complete a Program Enrolment Form. This form is available online at https://my.unsw.edu.au/student/academiclife/ProgramEnrolmentVariationForm.pdf

Be aware if you are not enrolled into any courses in any given semester nor are you on approved study leave, the university will cancel your enrolment. It is your responsibility to ensure that you are enrolled at the start of every semester and that your enrolment is correct.

Semester 1, 2011

Semester 1, 2011 runs for a total of 16 weeks i.e. 12 weeks of the normal teaching period, 1 week for mid-semester break, 1 study week and 1 exam/final assessment week. (Week 13 is a blank week as there are no tutorial classes for postgraduate Aviation students)

Courses (UNSW does not use the term "subjects") worth 6 Units of Credit (UoC) runs for 12 weeks while 3 UoC courses run for 6 weeks of the semester.

6 Units of Credit courses starts on 28 February (Week 1).
3 Units of Credit courses starts on 21 March (Week 4).

If students wish to do two 3 UoC courses, they must undertake them concurrently, the courses cannot be done one after the other in the same semester.

Students who are working full time should enroll as a part-time student undertaking 1 or 2 courses (maximum 12 UoC) per semester only. Recommended study time is 8-10 hours per week per course. Do not overload yourself by enrolling in too many courses.

Postgraduate Aviation Calendar & Key Dates

The Postgraduate Aviation Calendar can be found at the end of this guide. This calendar is slightly different to the official University calendar. So please make sure you refer to the Postgraduate Aviation Calendar throughout the
semester.

Please note the important key dates outlined in the Aviation Calendar such as:

- 6 Mar: Last day to enrol in all Semester 1 courses
- 31 Mar: (Census Date) Last day to discontinue Semester 1 courses without financial and academic penalty
- 31 Mar: Last day to finalise arrangements for FEEHELP
- 17 Apr: Last day to discontinue Semester 1 courses without academic penalty.

For more information on key UNSW dates, please visit myUNSW at https://my.unsw.edu.au/student/resources/KeyDates.html

**MyUNSW –** [https://my.unsw.edu.au/](https://my.unsw.edu.au/)

MyUNSW is your gateway to the administrative and information services you need throughout your studies. MyUNSW services include:

- Enrol and drop courses each semester
- Update your contact details, such as mailing address, phone number and maintain your personal data online
- Pay and view fees
- View assessment results and academic standing
- Academic records

Students will need to log into their myUNSW accounts regularly to ensure that contact details and course enrolments are correct for each semester.

Fees statement and payment options (Statement of Student Debt) are available online 2–3 weeks before the Teaching Period starts. If you have problems accessing your fee statement contact the Student Financials Team via email at csandfees@unsw.edu.au, or Tel: +61 2 9385 8500.

**Delivery of Courses –**

**UNSW Blackboard (Bb9) [http://telt.unsw.edu.au/](http://telt.unsw.edu.au/)**

Delivery of the postgraduate Aviation courses is through a web-learning
management system called UNSW Blackboard (Bb9). Students can log in to Bb9 via myUNSW [www.my.unsw.edu.au](http://www.my.unsw.edu.au) and click on the Bb icon located on the top right hand corner of myUNSW Home tab. Alternatively students can access the login page via [www.telt.unsw.edu.au](http://www.telt.unsw.edu.au). You will need to use your username (your student ID e.g. z1234567) and zPass to access.

This website is where all learning and teaching happens. It allows students to download course notes, submit assignments, contact facilitators, participate in discussion forums, complete student survey, and get support and other resources.

Students are to work/read through the study material as required.

A UNSW Blackboard - Student Getting Started Guide is attached to help you familiarise the system. More student support can be found at [http://support.telt.unsw.edu.au/blackboard](http://support.telt.unsw.edu.au/blackboard).

If you encounter any Bb9 technical problems, please contact UNSW IT Service Centre via email at ITServiceCentre@unsw.edu.au. Students are encouraged to print their own study notes from Bb9. However if you cannot print the course notes yourself and would like to order a printed course manual, please email Jamie Lim for an order form. The cost per course manual is AUD$150. Students who choose this option must still log into Bb9 regularly for extra readings, videos, tutorial questions or submission of assignments. Please note, the printed course manual may not arrive to you before Semester starts.

**Course Access Dates**

Students can access their course notes through UNSW Blackboard. Course notes are released in stages.

For 6 UoC Courses, the Course Units are released in 3 stages:
- Unit 1-4: releasing from **14 February** or 2 days after course enrolment
- Unit 5-8: releasing on Week 5
- Unit 9-12: releasing on Week 7

For 3 Units of Credit courses, the Course Units are released in 2 stages:
- Unit 1-3: releasing on Week 1
- Unit 4-6: releasing on **1 April**

Course access end date is **26 June**. After this date students can no longer access the courses. So please ensure you download any course notes to your local computer.
Assignment Submission

Assignments are to be submitted for marking on dates as specified in the course notes.

Students should always submit their assignments through Bb9’s Turnitin Submission Box unless advised by the facilitators. All submitted assignments must have an “Assignment Coversheet” attached to the front of it. These coversheets are available on Bb9 under Resources page. Assignments submitted without the assignment coversheet will not be marked.

Unless otherwise stated the assignment submission date is 11:59pm on Sunday of that week (AEDT). If in doubt please contact the course facilitator.

If you require an extension to assignment submission dates, you are to make a formal request to the course facilitator by email. Extensions to submission dates are not guaranteed and students should not assume that they will be given one. Due to students being situated in various places around the world in different time zones, we will not be holding scheduled “on-line” classes but course facilitators are readily contactable via email and where necessary telephone.

zMail (formerly known as UniMail) – https://zmail.unsw.edu.au/

All students enrolled at UNSW are provided with a UNSW email account. You will need to set up this account after you have enrolled. It is important you check your University email address regularly or arrange to have this forwarded to an account that is checked often. Official communication from the University will be sent to this account. It is your responsibility to ensure that you check this account regularly.

Your email address will take the form of “z1234567@student.unsw.edu.au” where “1234567” is your personal student ID number. Your student ID (with prefix “z”) along with your zPASS will allow you to access your zMail.

If this is the first time you use zMail, you will need to activate and set up your zMail account. This activation requires obtaining an initial Windows Live ID password. Please go to http://www.it.unsw.edu.au/students/zmail/index.html to find out how to set up your zMail. You can also create aliases for your email, i.e. rather than it being in the form of z1234567@student.unsw.edu.au, you can create an alias such as jamie.lim@student.unsw.edu.au.

Please note that the University will only send emails to your zMail account and not personal email. UNSW staff have the right not to respond to emails sent from your personal email.

When emailing the University, course facilitators or administrators, please
ensure to state your full name and student ID.

**Student ID and zPass**

All students enrolled at UNSW are given a Student ID and zPass. Your student ID/number is in the form of “z1234567”. Your zPass is an alphanumeric figure that along with your student ID will give you access to your myUNSW account, Blackboard and zMail account. If you do not have a zPass, you can obtain one via [http://www.it.unsw.edu.au/students/zpass/index.html](http://www.it.unsw.edu.au/students/zpass/index.html)

Please contact the UNSW IT Service Centre if you have any technical problems:
- Telephone: +61 2 9385 1333
- Email: ITServiceCentre@unsw.edu.au

**Student ID Card**

Students can get their Student ID Cards from UNSW FM Assist. FM Assist can mail student ID Cards to you. Please contact them via [http://www.facilities.unsw.edu.au/fm-assist/id-cards-and-building-access/](http://www.facilities.unsw.edu.au/fm-assist/id-cards-and-building-access/)

**FEE-HELP**

Eligible students wishing to apply for Commonwealth financial support – FEE-HELP – have until the **31 March** to do so. Information regarding FEE-HELP can be viewed via the Financials section of their myUNSW accounts. When you log into your myUNSW, click the tab at the top of page titled “My Student Profile” and “Commonwealth Government Forms. Scroll down and select "Update" to start the application process. Further information about FEE-Help can be found at [https://my.unsw.edu.au/student/fees/FeeHelp.html](https://my.unsw.edu.au/student/fees/FeeHelp.html)

**UNSW Library**

Apart from the prescribed course materials, students are required to research information from other sources. The UNSW Library is a great starting point to begin researching different topics [http://www.library.unsw.edu.au/](http://www.library.unsw.edu.au/) There is a brief outline on how to search for both texts and e-journals at the UNSW Library under UNSW Blackboard Resources page. UNSW Library invests in many electronic resources and made those available for enrolled UNSW students. You can find useful electronic resources such as academic journals through Sirius. Instruction on how to use Sirius is included in the Information Skills tutorial, Elise Plus which you can find at the following page: [http://eliseplus.library.unsw.edu.au/](http://eliseplus.library.unsw.edu.au/). In addition to this, if you have any questions regarding Library services, you can contact Michelle Murray, the
Learning Centre

The Learning Centre offers academic skills support to all students enrolled at The University of New South Wales - [http://www.lc.unsw.edu.au](http://www.lc.unsw.edu.au)
Of importance towards your studies at UNSW, that are available through the Learning Centre’s website, is the “Online Academic Skills Resources” and the “Plagiarism & Academic Integrity”. These online pages are self explanatory and it’s recommended you spend some time reading through this material. As a guide, we recommend that students use the APA (American Psychological Association) Referencing System.

Need Help?

If you need any help throughout your studies, please do not hesitate to contact the Postgraduate Programs Administrator at UNSW Aviation, Jamie Lim. She can be contacted via the following methods:

Email: [aviam@unsw.edu.au](mailto:aviam@unsw.edu.au)
Phone: +61 2 9385 6767
Fax: +61 2 9385 6637
Postal Address:
School of Aviation
The University of New South Wales
Sydney, NSW 2052
Australia
# POSTGRADUATE AVIATION CALENDAR

**Semester 1, 2011 (Last Updated 4 November 2010)**

Introduction

This document has been prepared to assist students who are enrolled in courses that use UNSW Blackboard for online learning. It introduces you to the Blackboard menus and navigation so that you can find your way around and understand the structure of a Blackboard course.

What is UNSW Blackboard?

UNSW Blackboard is an online learning management system (LMS) that is used in some UNSW courses that are taught either fully or partially online. It runs on the Blackboard Learn version 9.1 software.

In 2010 UNSW Blackboard replaced My eLearning Vista as the primary online learning application for most courses. Some courses, primarily in Engineering, piloted an alternative system called Moodle. Your lecturers will advise you if one of their courses will be using Moodle.

Resources to help me use Blackboard

This guide is a very brief introduction to the Blackboard user interface. Detailed support for learning to use Blackboard is available from:

  ![Figure 1.1](image1.png)

- The support site can also be reached from the TELT Gateway site (Technology Enabled Learning and Teaching, http://telt.unsw.edu.au/). Under Learning Management Systems\UNSW Blackboard, click Go to UNSW Blackboard support.

  ![Figure 1.2](image2.png)
• The Blackboard support site is also available via the User Guides tab once you have logged in to Blackboard. The User Guides page is where you will find a link to the Blackboard User Manual, as well as links to other support resources.

![User Guides](image1)

Figure 1.3

• Any Blackboard user can self-enrol as a student in the Blackboard Student Orientation course, using the link on the Blackboard Home page or the User Guides page. In this course, students can explore Blackboard and try out all the available tools.

![Blackboard Student Orientation](image2)

Figure 1.4

What do I need, to access UNSW Blackboard?

To view your Blackboard courses you will need to have:

• login account that consists of a UNSW zID and zPass
• computer with Internet access
• web browser installed with Java, JavaScript and cookies enabled in the browser settings.

Logging in to UNSW Blackboard

Log in to UNSW Blackboard via the TELT (Technology Enabled Learning and Teaching) Gateway:

1. Go to http://telt.unsw.edu.au
2. Click the Login to UNSW Blackboard link.
3. Click the link to the web Single Sign On page.
4. Enter your User ID and Password and click the Sign On button.
   - Your username is your UNSW zID.
   - Your password is your zPass.

Your zPass is not the same as the UniPass that you may have been using for other services. It is a new password system that is gradually being introduced across all IT services at UNSW. Visit the zPass for Students page at http://www.it.unsw.edu.au/students/zpass/index.html for information about zPass and how to activate it.

Login troubleshooting

Locked accounts

When entering your zPass, be aware that three incorrect login attempts will result in your account being locked for 30 minutes. To unlock your account:

2. Enter your zID at User ID and your zPass at Password, and click Log In.
3. On the welcome page, click the Unlock zPass button.
4. On the Unlock zPass Account page, click LOGOUT in the page banner.
5. Try logging in to Blackboard again.

Incorrect credentials

If you can’t login to the Identity Management site, this means you are using incorrect login credentials. To resolve this issue, contact the IT Service Centre (see ‘Technical support’ below).

Once you’ve successfully activated or unlocked your zPass, if you still can’t log in to UNSW Blackboard, try clearing your browser cache and cookies:

- In the Firefox browser this is done via Tools > Clear Private Data.
- In the Internet Explorer browser, select Tools > Delete Browsing History in the menu bar.

Expired passwords

You must change your zPass every 6 months. If you don’t, you won’t be able to log in to UNSW Blackboard. Go to the Identity Management site to change your password if you find yourself unable to log in to Blackboard.
Technical support for using UNSW Blackboard

If you don’t have a zPass, or have forgotten it, contact the IT Service Centre for assistance. Direct all other support requests for TELT services to the IT Service Centre.

Phone: +61 2 9385 1333

Email: ITservicecentre@unsw.edu.au

For locations of the walk-in Service Centre, see: http://www.it.unsw.edu.au/support/servdesk/servicedesk_home.html
Exploring the Blackboard home page

Once you’ve logged in to UNSW Blackboard, the Blackboard Home page displays.

![Blackboard Home Page](image)

**Figure 2.1**

▲ **Take Note**

1. From the page banner go to **My Places** where you can edit your settings, Blackboard Home page to access notices and courses, **Help** to access the support page, or **Logout** to log out, ensuring that no one else using this computer can access your account.

2. **Blackboard System Announcements** – this is where you will be notified about upcoming scheduled outages or other important messages from the System Administrator.

3. **My Announcements** – displays announcements for all the courses in which you are enrolled. It may also contain announcements from the system administrator. Click **more announcements...** to see older announcements.

4. The **My Courses** module shows a list of all your courses that have a Blackboard site and the Blackboard Student Orientation site, if you have self-enrolled into it. See notes below about course availability.

5. **My Calendar** – view all items from all courses on your Calendar. You also have the option to add and modify personal events. Click **more calendar events...** to create a personal event.

6. **My Tasks** – view all your tasks, including those from the courses you are participating in and your personal tasks. You can create your own tasks and post them to the **Tasks page**. Click **more tasks...** to create and manage tasks.

7. **Blackboard Student Orientation** and **Help** – follow the links to self-enrol into the Orientation Course and explore the course interface, or to go to the support website.
Other modules display on the Blackboard home page, such as University Services links and Service Centre Support contact details.

The Notifications Dashboard

At the top left of the Blackboard home page, the **Notifications Dashboard** tab displays.

![Notifications Dashboard](image)

**Figure 2.2**

The Notifications Dashboard displays notifications for changes to items. These notifications are displayed in two modules: **What's New** and **To Do**.

- **What's New** displays information about unread communications (e.g. discussion posts, blog posts) and any new created items (e.g. tests, assignments, announcements etc).
- **To Do** displays information about any assessments, assignments or surveys that have a due date.

All the notifications settings are configurable.

**Missing courses**

Inside the module called **My Courses** on the Blackboard home page, a list displays of all your courses that have a Blackboard site. Click the name of a course to enter it. If the word “unavailable” displays next to a course name, this means that the lecturer has not yet opened the course for students.

If you are expecting to find a course that is not listed, there are a few possible reasons:

- Either the course has not yet been made available by your lecturer or there is no Blackboard site for the course. Ask your lecturer if they will be using UNSW Blackboard or another online learning management system for the course and, if so, when it will be made available.
- Your enrolment in the Blackboard course has not yet been processed. Wait at least 24 hours after enrolment to see the course display in Blackboard.
- You are not correctly enrolled in the course. Check that your enrolment is correct in myUNSW.
- If you know that a Blackboard site for the course has been made available and you are correctly enrolled in myUNSW but still can’t see it listed, contact the IT Service Centre to investigate your Blackboard enrolment.
The course environment

Lecturers design their courses to each have a unique look, feel and structure. However, there are some common features.

Take Note

1. **Page banner** – identical to the page header you saw when you logged in. The **Blackboard Home** tab in the page banner enables you to navigate back to the My Courses list to access other courses.

2. **Course menu** – the access point for all course content. Lecturers decide which links are available and how the menu is organised.

3. **Content frame** – the area next to the menu displays the selected tool or content area. By default, when you enter a course, the course home page appears. The lecturer can choose which page displays when you first enter.
Exploring the course home page

The course home page usually contains modules that provide you with an intuitive way to navigate through Blackboard, and keep abreast of content additions and due dates through notifications. The two most relevant modules are My Announcements and My Calendar.

![Image of Blackboard course home page]

**Figure 4.1**

- **Take Note**
  1. What’s New – contains links to any new content such as assignments, tests, newly graded items, and unread Discussion Forum messages.
  2. To Do – is divided into What’s Past Due and What’s Due. These provide a chronological listing of upcoming due dates to be used as the launching point for a student’s daily course work.

Remember, your lecturer may choose *not* to provide these modules on the course home page.
Module contextual menus

Figure 4.2

- **Take Note**
  1. Use the arrows next to an item (the Action Link) to access the item’s drop-down contextual menu of options.
  2. In the What’s New and To Do modules, use the **Actions** contextual menu to expand, collapse or dismiss items in the module. When items are dismissed, they are deleted from the module.

Figure 4.3

Each item in a module has its own contextual menu, which you can use to **Open** or **Dismiss** the item. When you click **Open**, you are taken directly to the content.
Accessing course content and tools

Take Note
Access all course content from the course menu. The course menu can contain links to the following:

1. Module pages – pages that contain modules such as What’s New and My Calendar. The home page is an example of a module page.

2. Content areas – top-level containers that organise and store course content, such as lecture notes, assignments and tests. In the example above, the content areas are called Learning Activities 1 and Learning Activities 2.

3. Course links – direct links to content inside the course, also available as links on a content area page.

4. Individual tools – such as Discussions, Groups and Blogs.

5. External links – such as websites used for an assignment.
Course Menu views

Figure 5.2

Take Note
You can change what is displayed in the course menu, and whether the menu itself is displayed at all.

1. List View – displays the top level of the course menu only.
2. Folder View – displays the entire hierarchy of material. Expand and collapse folders, and access links within folders.
3. Display Course Menu in a Window – displays the course menu in a separate window. The window can be moved to a different screen location.
4. Collapse or Expand the Course Menu in the sidebar – collapse the links in the course menu.
5. Go to Course Home Page – return to the page chosen by the lecturer as the starting point.
6. Hide or Show Menu – Hide the course menu to create more viewing space in the content frame. Use in conjunction with Display Course Menu in a Window to customise the viewing area.
Accessing content in content areas

A content area can contain multiple components. For example, the lecturer may create a content area containing a week’s worth of course material, such as readings, an assignment, a discussion forum, and an external link.

Figure 6.1

To navigate content areas:

1. In the course menu, click the name of the content area. The content displays in the content frame.

2. In the content frame, click a link to access its content, such as a Discussion Board link or a file link.
The table below identifies some of the components commonly added to content areas. The word *item* is used generically, to mean any one of the components added to a content area.

<table>
<thead>
<tr>
<th>SYMBOL</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>📂</td>
<td>Folder – a container for items</td>
</tr>
<tr>
<td>📄</td>
<td>Item – text or file</td>
</tr>
<tr>
<td>📝</td>
<td>Assignment – link to an assignment</td>
</tr>
<tr>
<td>🚀</td>
<td>Course tool or Course link – link to a tool or other area in course</td>
</tr>
<tr>
<td>🌐</td>
<td>External link – link to a website</td>
</tr>
<tr>
<td>🕵️‍♂️</td>
<td>Test – link to a test or quiz</td>
</tr>
</tbody>
</table>

**NOTE:** You may see different icons from those shown above.

**Breadcrumbs**

As you view the items and links presented in a content area, use the breadcrumbs to navigate to previous pages. In the example below, you might click the title of the course in the breadcrumbs to return to the course home page.

**NOTE:**

1. *Don’t* use your browser navigation buttons to navigate to a previous Blackboard page.
2. If you cannot see the breadcrumbs, try scrolling to the top of the content frame.

![Figure 6.2](image-url)
Using the Tools link

The **Tools** link contains links to all of the tools the lecturer has made available in the course.

![Diagram of Blackboard interface showing the Tools link and buttons for Announcements, Blogs, and Calendar]

> **To access tools using the Tools link:**

1. In the course menu, click **Tools**.
2. On the **Tools** page, click the name of the tool to access.
Going further

This document is designed to get you started quickly with UNSW Blackboard. To learn more, log in to Blackboard and self-enrol in the UNSW Blackboard Student Orientation course. This online course will give you an opportunity to try out the tools and familiarise yourself with using Blackboard in preparation for your online courses.
